GOVERNOR TO ANNOUNCE MID-YEAR BUDGET CUTS TODAY

Important Aid Accounts Will See Reductions Gov. Will Ask Legislature for Ability to Cut Unrestricted Local Aid by 1%

At a State House press conference at 12:30 this afternoon, Governor Deval Patrick will announce a $540 million shortfall in the state's fiscal year budget, and will unveil a number of actions to balance the budget this year.

The Governor's approach will follow two paths. First, using his existing authority to declare a fiscal emergency and reduce executive branch spending (generally referred to as 9C powers). He will be able to unilaterally reduce state agency accounts, and those cuts may be as much as $225 million. The MMA has learned that the Special Education Circuit Breaker program will be reduced by $11 million, the McKinney-Vento reimbursement program will be cut by $5 million, and Regional School Transportation Reimbursement Account will be cut by $1 million. Other reductions to municipal and school reimbursements are possible, and the MMA will be analyzing and reporting on those later today.

Second, in a move that will surprise the Legislature and local officials, the Governor will file legislation requesting expanded 9C powers to reduce non-executive agencies by 1%. This will include a proposal to have the Legislature approve a 1% cut in Unrestricted General Government Aid (UGGA), for a mid-year reduction of $9 million. The MMA will strongly oppose any cut to unrestricted municipal aid, because that would destabilize local budgets in the middle of the fiscal year, force reductions in services. Municipal aid has already been cut 32%, or $416 million below fiscal 2009 levels.

Please watch for a special MMA Action Alert later today with more information and details.
