Re: Mayflower Manor Local Initiative Program Application
84 South Main Street, Middleborough MA

Dear Mr. Frawley:

On behalf of my clients, Marc Resnick (principal) and Mayflower Manor Realty Trust (applicant), we would like to thank the Selectmen for your Letter of Support for applicant's Massachusetts Department of Housing and Community Development ("DHCD") Local Initiative Program ("LIP") application for affordable rental housing project at 84 South Main Street, Middleborough. Pursuant to your request during our presentation at your November 9, 2015 meeting, we are enclosing a copy of the 21E Site Assessment Report for the property that was conducted in January of 2006. We would now respectfully request the Selectmen and the Affordable Housing Committee to sign the three enclosed LIP applications so we may file for project eligibility from DHCD. Once we receive DHCD approval, we will file a Comprehensive Permit application with the Zoning Board of Appeals and proceed through that process.

We are enclosing herewith three (3) copies of the LIP application and have noted the requested signature lines. If you and Jane Kudcey for the Affordable Housing Committee could please sign the three applications and return them to us using the enclosed FedEX return slip, that would be greatly appreciated.

Thank you again for your support.

Very truly yours,

Peter L. Freeman

*BOS - You had voted in favor + to sign once this was received. It is in signature folder for Chairman to sign.

November 19, 2015

Dear Honorable Board,

I am pleased to inform you that the Middleborough Fire Department has been awarded an Emergency Management Performance Grant (EMPG) through the Massachusetts Emergency Management Agency (MEMA) in the amount of four thousand nine hundred and sixty dollars and no cents (**$4,960.00**). This grant will allow us to purchase a mass notification system (2-Way Text Messaging device) for the Police Department and three (3) mobile radios to be installed in the Fire Department Command vehicles, replacing outdated, obsolete and non-compliant radios. (See attached contract)

I am equally pleased to inform you that we have been awarded FEMA reimbursement for the blizzard this past winter in the amount of thirty two thousand eight hundred twenty seven dollars and twenty-five cents **($32,827.25),** 75% of $43,769.66, for snow removal off the roofs of the schools, library and council on aging. In addition, we have been awarded two thousand three hundred four dollars and two cents **($2,304.02)**, 75% of $3,072.02, for the replacement of a light pole at the Council on Aging. I am confident the remaining reimbursements are forthcoming.

Thank you for your continued support and confidence in me to serve as your Fire Chief as well as your Emergency Management Director (EMD).

Respectfully,

Lance Benjamino - EMD
Chief of Department

Re: Town of Middleborough, Middleborough High School

Dear Mr. Nunes:

I am pleased to report that the Board of the Massachusetts School Building Authority (the "MSBA") has voted to invite the Town of Middleborough (the "Town") to partner with the MSBA in conducting a Feasibility Study for the Middleborough High School. The Board's vote follows the Town's timely completion of all of the requirements of the MSBA's Eligibility Period.

I do want to emphasize that this invitation to partner on a Feasibility Study is ***not*** approval of a project, but is strictly an invitation to the Town to work with the MSBA to explore potential solutions to the problems that have been identified. Moving forward in the MSBA's process requires collaboration with the MSBA, and communities that "get ahead" of the MSBA without MSBA approval will not be eligible for grant funding. To qualify for any funding from the MSBA, local communities must follow the MSBA's statute, regulations, and policies which require MSBA collaboration and approval at each step of the process.

During the Feasibility Study phase, the Town and the MSBA will partner pursuant to the terms of the Feasibility Study Agreement to find the most fiscally responsible and educationally appropriate solution to the problems identified at the Middleborough High School. The Feasibility Study, which will be conducted pursuant to the MSBA's regulations and policies, requires the Town to work with the MSBA on the procurement of an Owner's Project Manager and Designer, which will help bring the Town's Feasibility Study to fruition.

We will be contacting you soon to discuss these next steps in more detail. In the meantime, however, I wanted to share with you the Board's decision and provide a brief overview of what this means for the Town of Middleborough.

I look forward to continuing to work with you as part of the MSBA's grant program. As always, feel free to contact me or my staff at (617) 720-4466 should you have any questions.

Sincerely,

John K. McCarthy

Subject: **Notice of Failure to Comply with Dam Safety Order**

Dam Name:	Stony Brook Pond Dam
Location of Dam:	Middleborough
National ID No.:	MA03390
Known Condition:	Poor
Hazard Potential:	Significant

Dear Dam Owner:

On March 22, 2011, an inspection of the Stony Brook Pond Dam was completed by your engineering consultant Pare Corporation, Inc. As a result of this inspection, the dam was determined to be **STRUCTURALLY DEFICIENT** and in **POOR CONDITION**.

This letter serves as written notification that you have failed to comply with the Certificate of Non-Compliance and Dam Safety Order issued by the Office of Dam Safety (ODS) on June 20, 2012, copy enclosed. In accordance with G.L. c. 253, Section 47 and 302 CMR 10.07 you were ordered to conduct the following:

1. Complete Follow-Up Inspections, conducted by a registered professional engineer, qualified to conduct dam inspections, at your cost, which are to be completed at 6-month intervals until adequate repairs are made or the dam is adequately breached.
    a. ODS notes that a recent Dam Safety Order dated June 11, 2015 addressing Follow Up Inspections was sent to you under separate cover. Your compliance with this important dam safety requirement is appreciated.
    b. For your information, Phase I inspections, due on a five year frequency, meet the follow-up inspection requirement, with the next follow-up inspection being due six months after the date of inspection.

2. Hire, at your cost, a qualified registered professional engineer with dam engineering experience to conduct a Phase II Inspection and Investigation of the dam to evaluate the structural integrity and spillway hydraulic adequacy of your dam and to develop/implement a plan to bring the dam into compliance with dam safety regulations by adequately repairing, breaching or removing the dam.
    a. Commence the Phase II Inspection and Investigation no later than September 22, 2012.
    b. Deliver the completed, signed and stamped Phase II Inspection and Investigation to ODS no later than March 23, 2013.

3. Bring the Dam into compliance and complete repair or removal work no later than March 23, 2014

4. Additional Requirements:

    a. Furnish copies of all required submittals listed in items 1 – 3 above via certified mail.
    b. Contact and maintain communication with the Middleborough Conservation Commission and any other local, state or federal permitting agency to ensure compliance with the Wetlands Protection Act and any other regulatory requirements.
    c. Inform all local, state or federal permitting agencies, all abutters of impoundment upstream and property owners within one-half mile downstream of the Stony Brook Pond Dam of the condition of the dam and your developing plans to bring the dam into compliance with dam safety regulations.

As of today's date ODS has not received the above listed requirements from the 2012 Certificate of Non-Compliance and Dam Safety Order as it pertains to a Phase II Report and schedule for bringing Stony Brook Pond Dam into compliance. Please be aware that failure to comply with Dam Safety requirements pertaining to poor condition dams will result in enforcement of the provisions of Dam Safety Law Chapter 253 Sections 44 – 48 and Regulations 302 CMR 10.00. Continuing failure to comply can lead to fines and referral of this matter to the Commonwealth's Office of the Attorney General for resolution.

You are hereby notified that you have forty-five (45) days from receipt of this letter to communicate to ODS, in writing, your current plan to comply with the requirements of the Dam Safety Order issued on June 20, 2012. Failure to communicate your plan to comply within 45 days of receipt of this letter will result in the Office of Dam Safety resuming enforcement in accordance with Chapter 253 Sections 44 – 48 and 302 CMR 10.00

Please direct questions to Edward Hughes at Edward.Hughes@state.ma.us

Subject: **CERTIFICATE OF NON-COMPLIANCE and DAM SAFETY ORDER**

Dam Name: **Stoney Brook Pond Dam**
Location: Middleboro
National ID No: MA03390
Known Condition: Poor
Hazard Potential: Significant

Dear Ms. Cassady:

In accordance with 302 CMR 10.08, the Department of Conservation and Recreation (DCR), Office of Dam Safety (ODS) has determined that the **Stoney Brook Pond Dam** does not meet accepted dam safety standards and is a potential threat to public safety. Therefore, DCR hereby issues a **CERTIFICATE OF NON-COMPLIANCE and DAM SAFETY ORDER**.

ODS records indicate that the Town of Middleborough is the owners of the Stoney Brook Pond Dam, National Inventory of Dams No. MA03390. ODS classifies the dam as an **Intermediate Size, Significant Hazard Potential** Structure. Significant Hazard Potential Dams are dams that may cause the loss of life and property damage in the event of dam failure.

On March 22, 2011, your engineering consultant, Pare Corporation, completed an inspection of the Stoney Brook Pond Dam. As a result of this inspection, the dam was determined to be **STRUCTURALLY DEFICIENT** and in **POOR** condition. The dam has been found to be in

need of repair, breaching or removal to bring the dam into compliance with dam safety regulations.

This CERTIFICATE OF NON-COMPLIANCE is based on the above-referenced inspection report results, which listed the observance of many deficiencies, including, but not limited to:

- Numerous large trees are present along the upstream and downstream slope contrary to the ODS Policy on Trees which requires that earth embankment dams be maintained free of the existence of trees and woody growth. Such vegetation undermines the dam's stability as tree roots cause serious structural damage to earth embankment and appurtenant dam features such as gate wells, spillway walls and other components. Furthermore, trees are known to accelerate deterioration of dams and can lead to dam failure. This policy can be found on the ODS website at http://www.mass.gov/dcr/pe/damsafety/index.htm.
- Former overtopped and eroded sections of the upstream side, crest and downstream side have been temporarily repaired and filled with sandbags and clay.
- No slope protection is present along the upstream exposed slopes.
- Areas of apparent depressions on the dam crest.
- A slight bow in the upstream concrete wall at station 0+59.
- The vertical alignment of the crest is very irregular.
- The exposed slopes on the downstream side are steep with slopes up to a 1.5H:1V observed.
- Aged and scoured concrete along the normal pool line at the spillway.
- Undermining at the base of both downstream wing walls of the spillway.

ODS staff visited the dam on August 5, 2011 and observed that conditions were substantially similar to the conditions reported at the time of the March 22, 2011 Phase I Inspection Report, and that accordingly, the dam remains in poor condition. These foregoing deficiencies compromise the structural integrity of the dam and present a potential threat to public safety. ODS has determined that the dam needs to be repaired, breached or removed in order to bring the dam into compliance with dam safety regulations. Failure of this dam may cause loss of life and could cause property damage to commercial buildings, residential dwellings and East Main Street/MA Rte 105 which is located approximately 730 feet downstream of the dam.

G.L. c. 253, §§ 44-48 and 302 CMR 10.00 set forth the jurisdiction for ODS, its authority to take action and order actions to be taken. For your information a copy of the Dam Safety Regulations, 302 CMR 10.00 Dam Safety, can be found on the ODS website.

DAM SAFETY ORDER:

In accordance with the authority of G.L. c. 253, § 47, 302 CMR 10.07 and 10.08 you are hereby **ORDERED** to comply with the following:

1) **Conduct Follow-up Inspections:** You shall complete follow-up visual inspections at 6 month intervals at your cost, conducted by a registered professional civil engineer qualified to conduct dam inspections, until adequate repairs are made or the dam is adequately breached. You shall submit the first Follow-Up inspection to ODS no later than **July 20, 2012**.

Follow-up inspections are to be summary in format and shall provide a written description and photographs of any changes in condition. Your engineer is to use the attached ODS Poor Condition Dam Follow-up Inspection Form to report follow-up inspection findings. The form is also available electronically on the ODS web site. Your engineer shall include a signed and stamped cover letter on engineering firm letterhead that briefly summarizes the current follow-up inspection and findings.

You shall submit one (1) hard copy and one (1) electronic pdf copy of all completed follow-up visual inspection reports to ODS within 30 days of the date of follow-up inspection field work.

2) **Conduct Phase II Inspection and Investigations**. You shall hire at your cost, a qualified registered professional engineer with dam engineering experience (engineer) to conduct a Phase II Inspection and Investigation of the dam to evaluate the structural integrity and spillway hydraulic adequacy of your dam and to develop/implement a plan to bring the dam into compliance with dam safety regulations by adequately repairing, breaching or removing the dam (see attached Phase II Investigation Outline).

   a. You shall commence the Phase II Inspection and Investigation no later than **September 22, 2012**. The Phase II Inspection and Investigation is to conform to the attached Phase II Investigation Outline. You are to, in a letter to ODS, no later than **September 8, 2012,** identify your selected engineer and inform ODS of the start date of the Phase II work.

   b. The Phase II Inspection and Investigation is to be completed, signed and stamped by your engineer and copies of the Phase II final report are to be delivered to ODS no later than **March 23, 2013**.

   You shall include a cover letter with the submitted Phase II report which describes your selected alternative to bring the dam into compliance with dam safety regulations. You shall submit a statement of your intent to implement inspection report recommendations to address structural and operational deficiencies to ODS upon submission of the required Phase II Inspection and Investigation completed by your engineer.

3) **Bring the dam into compliance and complete all repair, breach or removal work no later than March 23, 2014.** With your Phase II submittal, you must also provide a proposed timeline to design, permit and construct the selected alternative to repair, breach or remove the dam. The selected alternative must be completed, and the dam brought into compliance with Dam Safety regulations, by March 23, 2014.

4) **Additional Requirements:**
   a. You shall furnish copies of all required submittals listed above via certified mail.
   b. In order to maintain compliance with the Commonwealth's Wetlands Protection Laws you may have to seek requisite approval from your local Conservation Commission in accordance with G.L. c. 131, §40. You are

obligated to contact and maintain communication with the Middleborough Conservation Commission and any other local, state or federal permitting agency the ensure compliance with the Wetlands Protection Act and any other regulatory requirements.

c. You must inform the following parties about the condition of the dam and your developing plans to bring the dam into compliance with dam safety regulations: all abutters of the impoundment upstream; property owners within one-half mile downstream of the Stoney Brook Pond Dam; Jason Zimmer, Southeast District, Division of Fisheries & Wildlife, 195 Bournedale Road, Buzzards Bay, MA 02532; Liz Kouloheras, Department of Environmental Protection, Southeast Region, 20 Riverside Drive, Lakeville, MA 02347; Alfred P. Rullo, Jr., Chair, Middleborough Board of Selectmen, 10 Nickerson Avenue, Middleborough, MA 02346; Charles J. Cristello, Middleborough Town Manager, 10 Nickerson Avenue, Middleborough, MA 02346; Patricia J. Cassady, Middleborough Conservation Agent, Bank Building, 20 Centre Street, 2nd floor, Middleborough, MA 02346; Lance Benjamino, Middleborough Emergency Management Director, Fire Department Headquarters, 125 North Main Street, Middleborough, MA 02346.

Please be advised that in accordance with G.L. c. 253, § 47, "any person ... who fails to comply with the provisions of this chapter or of any order, regulation or requirement of the department relative to dam safety, shall be fined an amount not to exceed $500 for each offense, to be fixed by the court." Furthermore, each violation shall be regarded as a separate and distinct offense and, in case of a continuing violation, each day's continuance thereof shall be deemed to be a separate and distinct offense.

Nothing in this order releases the owner from the requirements of any prior Dam Safety Order issued for this dam, including any Dam Safety Order to submit follow-up inspections on a 6-month schedule.

In accordance with 302 CMR 10.08, this CERTIFICATE OF NON-COMPLIANCE and DAM SAFETY ORDER will be recorded at the Registry of Deeds. Issuance of a Certificate of Compliance following adequate repair or breaching of the dam will be required to discharge the CERTIFICATE OF NON-COMPLIANCE and DAM SAFETY ORDER.

Please direct any technical questions, correspondence, or submittals to Edward Hughes, Department of Conservation and Recreation, Office of Dam Safety, 251 Causeway Street, Suite 600, Boston, MA 02114. Legal questions should be directed to the DCR Assistant General Counsel, Ariana Johnson, 251 Causeway Street, Suite 600, Boston, MA 02114. Additional dam safety information can be found at the DCR-ODS website. http://www.mass.gov/dcr/pe/damSafety/index.htm.

Thank you for your cooperation.

RE: Important Information—Price Changes

Dear Chairman and Members of the Board:

We are committed to constantly improving our customers' entertainment and communications experience in your community, and we continue to invest in making their services even better.

Our investment in the X1 user interface has been extremely popular and is helping customers find and enjoy the vast array of content they receive. We continue to bring customers innovative improvements like the X1 voice controlled remote control, the X1 talking guide, X1 Cloud DVR services, and the X1 Sports App. As we make these and other investments, we periodically need to adjust prices due to increases we incur in programming and other business costs. Starting December 20, 2015, new prices will apply to select XFINITY TV and Internet services and equipment as reflected in the enclosed notice.

We are committed to providing our customers with a consistently superior experience, including 24/7 customer service and on-time arrival—or we'll credit the customer $20. We back up our services with the Comcast Customer Guarantee (visit www.comcast.com/guarantee for details).

We know you may have questions about these changes. If I can be of any further assistance, please contact me at 617.279.6017.

Sincerely,

Mary O'Keeffe
