A handwritten signature in black ink, appearing to read "Andrew Bagas".

RE: Intersection Improvements

The Town of Middleboro Department of Public Works has been in the process of preliminary engineering and design for improvements to the intersection of Tispaquin and Rocky Meadow Streets.

As an abutter, you are aware of the potential hazards as you drive through this area.

Police Chief Gates and I have looked at several alternatives for improvements and the preferred design is to construct a "roundabout" which is similar to a rotary. The advantage of a roundabout is that it slows traffic, eliminates blind turning movements, and retains the rural country appearance of the area. A copy of the preliminary design concept is attached for your review.

An informational meeting will be held on January 11, 2012 at 8:30 pm at the Board of Selectmen's meeting at Town Hall. You are encouraged to attend.

If you have any questions or comments, you can reach me at 508-946-2481.

Cc: Chief Gates
