RE: Surplus Property

This is a request to declare 28, 12" metal and 6 particle board lockers as surplus.

The metal lockers were used and given to the Police Dept. from the School Dept. in 1973 when the new High School was built. The particle board lockers were used and donated from Otis Air Force Base in the mid 1980's.

Because of their age and deteriorating condition they are being replaced and should be declared surplus junk.

Respectfully Submitted,

A handwritten signature in cursive script, appearing to read "Bruce D. Gates", is written over a horizontal line.

Re: Assistance to the City of Springfield

Afternoon:

I have received a request for assistance to the City of Springfield, via the MFBO.

If you do plan on going helping... **you need to let me know.**

I will need your name, telephone number and the community that you work for.

Commissioner Walsh -

As you may be aware, DPS (along with other municipal departments) has dedicated inspection and administrative personnel to assist with post-storm, rapid building damage assessments and other efforts over the last several days. At this time, the DPS must pull-back resources to attend to normal Department activities. However, we continue to receive requests for assistance as communities segue into storm recovery efforts. Consequently, we seek assistance through the Massachusetts Federation of Building Officials to help fill the need.

At this time we have the following requests:

1. Town of West Springfield

Commissioner Patrick Moore requests immediate assistance of 2-3 building inspectors to issue building permits and perform field related inspections.

Pat may be reached at (413) 263-3057. I have copied him on this message as well for purposes of information.

2. Town of Monson
