Over the course of the past year, various state legislators, including myself, have filed a number of different bills that would authorize the expansion of gaming in Massachusetts. The fact that each of these bills proposes something a little different can certainly create some confusion, and I feel that it is important to explain the content of the proposed pieces of legislation and offer you my position on them.

As many readers may already be aware, I have long been a strong proponent of expanded gaming. I believe that a combination of slots at the tracks **and** full-fledged resort casinos is the best scenario for the Commonwealth, and I firmly believe that such a combination would greatly benefit our state by creating thousands of jobs and generating hundreds of millions of dollars in revenue. This revenue could be used for local aid to cities and towns, as well as for funding education, health care and other services. Expanded gaming will certainly not be a remedy that cures all of the effects that the global recession has had on our state, but as one important piece of a broad economic development strategy it will certainly help.

As a result of my stance on expanded gaming, I have signed on as a co-sponsor to a number of gaming bills filed by my colleagues. I do not think each of these bills is perfect, however being signed on as a co-sponsor will allow me to take an active role in helping to shape the legislation. For example, I co-sponsored a bill in the House of Representatives entitled "An act establishing and regulating resort-style entertainment in the Commonwealth" (H4068), which was filed by Representatives Brian P. Wallace and Martin J. Walsh. This bill would allow for three resort casinos throughout the state. I agree with the vast majority of this bill, except for one glaring issue: Plymouth county is not included as a possible resort casino site. As a co-sponsor, I have been able to speak with the lead sponsors of the bill, and they have indicated to me that there will be no problem in amending the House Bill to include Plymouth County.

Even though I am confident the House bill will be amended, I felt so strongly that Plymouth County should not be excluded from the legislation that I filed my own version in the Senate, which explicitly includes Plymouth County, two days after the House version was filed. (H4068 was filed on 1/14/09; my Senate version was filed on 1/16/09.) The bill I filed carries the same title as the House bill, and is numbered S2042. Within S2042 there are three clearly defined gaming market areas, each of which will have the opportunity to license up to one resort casino. On lines 156 through 158, the bill defines these three market areas as "Region 1 – Suffolk, Middlesex and Essex counties; **Region 2 – Norfolk, Bristol, and Plymouth counties**; Region 3 – Worcester, Hampden, Franklin and Berkshire counties." Any community within any of those counties that receives local approval could be a potential host community.

cjh

There are some facts about S2042 that I would like to make especially clear. Firstly, as the Town of Middleboro is part of Plymouth County, it is included in my bill and has always been. The main reason I filed my own version of the House legislation was to make sure that Middleboro and Plymouth County were included. Secondly, any use of the term "Bristol County market" in S2042 refers to the entire Region 2 market as I originally defined it, which includes Bristol along with Norfolk and Plymouth counties.

It does not refer solely to Bristol County, and it is not intended to. I can understand how this may be confusing, and a change in language from "Bristol County market" to "Region 2" might be an improvement. This change, however, is not needed in order for Middleboro to be included, and if the language is eventually changed it will serve solely as a way to eliminate confusion.

Recently Speaker of the House of Representatives Robert DeLeo announced his plans to file his own gaming bill that would allow for two resort casinos as well as slots at the tracks. I am pleased that he is embracing stand-alone resort casinos and slots at the tracks, however I believe that three resort casinos would better serve the Commonwealth than the two he proposed. Also, he has not yet specified what the casino market regions will be in his bill, though I intend to work closely with his office and the chairs of the Joint Committee on Economic Development and Emerging Technologies to ensure that Southeastern Massachusetts is one of the specified sites.

I would also like to note that the full texts of all pending bills are available online at the official website of the Massachusetts Legislature (<http://www.mass.gov/legis>). As stated above, the bill I presented is entitled "An Act Establishing and Regulating Resort-Style Entertainment in the Commonwealth", and is filed as Senate Bill 2042.

I hope I have been able to shed some light on the scope of the proposed legislation and my reasons for supporting expanded gaming. I sincerely believe that a comprehensive gaming bill that includes slots at the tracks and three resort casinos will have an extremely positive impact on Massachusetts, and I intend to fight hard to see that a bill of this nature is passed as soon as possible. For more information on my position on gaming and other issues, feel free to visit www.marcpacheco.org.

I, the Clerk of the Board of Selectmen of the Town of Middleborough, Massachusetts, certify that at a meeting of the board held March 8, 2010, of which meeting all members of the board were duly notified and at which a quorum was present, the following vote was passed, all of which appears upon the official record of the board in my custody:

Soule Homestead Education Center

2010 Farm Plan

During the year 2010 land use at the Homestead will consist of the following:

1. The eastern most fields along Soule Street (approximately 10 acres) including portions of land in Plympton will continue to be used by Richard Seaman of Sheepdog Junction for raising sheep, to train Border Collies and other herding breeds. Richard will give demonstrations at Soule Homestead Education Center's Earth Day/Sheep Day and Harvest Fair events.
2. 5 Acres, across the wetlands, 1/4 mile directly north of the barn, will continue to be rented by S.H.E.C. director, Frank V. Albani, Jr. of Golden Rule Farm for certified organic vegetable production. Frank also has a small garden and hoophouse (unheated greenhouse) close to the barn. Frank has been growing for market at Soule Homestead since 1996, his work is often involved with Children's Education Programs at the farm. Frank has applied to the USDA / NRCS for funding to build another hoophouse and to replace fencing in the sheep / goat areas.
3. Dave Purpura, of Middleboro, will be growing certified organic vegetables on three acres adjacent to Frank. Dave also has land and a CSA program on Fuller St.
4. All fields not in other uses are cut for hay under contract with Rick Burnet.
5. Rick Burnet and Dave Detterman of Plympton again plan to raise 8 – 10 grass fed beef cattle on the fields to the west of the barn.
6. Soule Homestead's sheep & goats continue to use the small east field, adjacent to the house and barn, as well as the areas directly behind the barn. The Poultry Barn is directly west of the main barn. The pens connected to the poultry barn allow our poultry to have outdoor access. Kathy Heimerdinger, our primary animal caretaker and our most generous volunteer, has been caring for the animals at SHEC for over 18 years.
7. The community garden area offers approximately 15 plots to area organic gardeners for a nominal fee. We once again have a section of the community garden area set aside, as the Middleboro High School special needs pumpkin patch. We have worked with the special needs group at no charge to the Town, for about 16 years.
8. The compost area next to the community garden area allows us to recycle animal bedding and manure, and we encourage local residents to drop off their bagged leaves in the fall.
9. Organic Land Management practices are followed on the entire property.

The farm buildings will be used as follows:

Main barn: Lower level, classroom, office & storage.

1st Floor: Animal stalls and tool storage.

Loft: Hay Storage.

16x24 Outbuilding east of barn --sheep housing.

20x55 Outbuilding west of barn --poultry barn.

16x20 Outbuilding north of barn—equipment storage.
